

4.1 What is the major threat to water resources?

A What are the uses of water?

Do you know the uses of water? Fill in the boxes below.

B Are all people using the same amount of water?

We can answer this question by referring to the water footprint.

Water footprint

- It is the amount of water we use _____ or _____.
- It is related to the level of _____ of a place.
- The higher the level of economic development of a place, the _____ the water footprint of this place.
- For example, the USA has (larger / smaller) per capita water footprint than China.
